### *TIME TO DANCE* *THE INNER SOUL OF CHASSIDIC MUSIC*

*"Time to Dance"* proudly brings you the sixth album in the classic series. As in the previous recordings, these are not well-known, popular tunes. Rather, these selections bring back the depth of feeling of a bygone era. They are as timely today as when they were originally composed by the *Tzaddikim* of Bobov, Sanz, Ropshitz and a featured masterpiece from the Chassidic court of Belz, as well as others. Sung at the *Tischen* and during the *tefillas* on Shabbos and Yom Tov, these niggunim stir the listener's soul to joy, to tears, and to strive for spiritual heights. The richness of tone, beautiful arrangement and symphonic sound are sure to please the most discriminating ear, while pulling at the strings of the Jewish heart.
